

## Learning Platform

Hopping Hill is beginning to develop their Learning Platform.

A learning Platform is a secure site controlled by teachers, where all members of school can make contributions both in school and at home, share work, continue learning out of the classroom and share information.

The site is in the very early stages of development and is being introduced in parts to the children.

Children will require a user name and password which will be distributed over the coming weeks.

Children can read all class pages on the site but can only add information, points of view, join debates etc in their own class area.

We hope to develop the site as a place where learning can be shared by all. If you do not have internet access at home we welcome all families to homework club on a Monday after school or you could use computers in the library.

We will keep you up to date as the site develops and would welcome your feedback as it evolves.
