

Eco-School News

October 2008

It has been a very busy term for the Eco-Team. We now have a new team of Eco-Leaders from Year 5 and an Eco-Monitor from each class and they all wear their Eco-Badges with pride.

On the last day of term (Friday 24th October) there is an Eco-event. The children will work in their houses to design the best Guy Fawkes for the bonfire night on Thursday 6th November. The first challenge is to see which house can collect the most materials. We will let you know the results next month.

As it is coming up to Christmas Year 1, Year 3 and Year 5 will be learning how to make recycled Christmas decorations from unwanted household goods.
