

project time!

It's our final project and this piece of work will have a writing focus. We are looking at outdoor art through our Connector this term which is 'Life'. You can design a piece of art that could be displayed outside and shows what life means to you. Your design will be supported by a piece of writing that explains what the design is and what is needed to make it, along with what has influenced your ideas.

The final piece of writing will show **3 hours of work over the term** and can be done in any form you like, for example, hand written or typed.

You need to remember to include capital letters and full stops in your writing and don't forget connectives and adjectives to make your work more interesting!

We are looking forward to reading your finished project work and looking at your design which is due in on **Monday 29th June**.
