

Challenge Project

This half terms project consists of a set of challenges that will allow you to learn new skills, show your talents and help around the home. We would like you to complete as many challenges as possible from the list given (lists vary depending on year group) and bring in evidence of your work for a project display on Friday 27th March. Friends and family are welcome to come to the display morning from 9:30 - 10:30 am to view your certificates and share your hard work with you.

The challenges involve lots of different activities and things to do, don't worry if you don't have the game you need to learn at home you can borrow it from your classroom but don't forget to sign in the book so we know where it is. This will be in a box in your classroom which will include tape measures, atlases and paper to help you with your project, just sign in the book for anything you borrow.

We would like you to record some of your challenges so as we can see what you have been doing. You might choose to build a scrap book, take photographs and make an album, make a poster of your work, keep a diary or create a power point presentation (this would be more suitable in years 4 to 6).

Your finished work should show that you have worked for 1 hour minimum per week at Key Stage 2 and for 30 minutes per week at Key Stage 1. Reception children would only be expected to sign next to challenges achieved but you are welcome to bring in any evidence. There are 8 weeks between now and when the project is due in on Monday 23rd March (not including half term, when you will need a well earned rest) so we would expect evidence to reflect this amount of time.

We are all looking forward to sharing your work with you in March and hope that you enjoy and learn from the challenges set. Please let your class teacher know if you need any help and support.

Important Dates:

Projects due in on Monday 23rd March

Project display in classrooms on Friday 27th March 9:30am -10:30am (all welcome)
